GRAYLING, MICHIGAN, MAY 29, 1930

OSCAR P. SCHUMANN, Editor and Proprietor

NUMBER 23

BOARD AWARDS LETTERS FOR ATHLETICS

You've no doubt seen them around town—those striking green sweaters with the emblem of school service on the front. Very neat and the envy of all those fellows who are without. Those letters on the sweaters are the mark of the distinguished service, the stamp of the Grayling High School athlete who has proven his worth by bearing the strain of competition. They are the outward symbol of success.

They made their appearance at a banquet served last Thursday night at "Bob's Place". And by no means should anyone pass lightly over mention of that feat. The gang took off their coats, rolled up sleeves, and waded into piles of chicken and casseroles as if it meant the difference between success and failure, or a victory over Gaylord. When they finally leaned back in their chairs they were positive that such meals mark epochs, and that the members of the Board of Education make excellent hosts. The members themselves were rather too full for words and quite well sold on the success of the venture. Dr. Keyport presented the letters for the sweaters as "favors" of the event and Art M. responded for Coach Cushman's team. As far as ceremony goes that was all there was. The dinner over, the affair resolved itself into a theatre party and four carloads went to Gaylord to end a happy day with "Happy Days." It was all of that.

The wearers of the new sweaters are fourteen in number and received their letter awards for basketball and baseball service. The men are Sheehy, Cunniff, Loken, Ingrow, Rudy and Billy Harrison, Emory Sherman, Kolvane, Kihonnan, May, Post, Pond and Schmidt.

K. OF C. SPEAKER TO ADDRESS GRAYLING COUNCIL JUNE 6

H. H. Johnson, representative of the Supreme Council, Knights of Columbus, will visit four Michigan councils, during the week of June 2, to explain several improvements in the insurance laws which were voted at the last Supreme Convention and to outline the boy work program, which is now the major peacetime welfare activity of the Order.

Mr. Johnson is one of several special representatives who provide a contact between the headquarters of the Order here and the more than 2,000 subordinate councils in the United States, Canada, Mexico, Cuba, Porto Rico, and the Philippines.

He will arrive in Standish on Tuesday, June 3 and will be the guest of Standish Council on that date. The following day, he will visit Tawas Council in East Tawas. On June 5, he will visit Ogemaw Council in West Branch and on June 6, he will meet the officers and members of Grayling Council in Grayling.

One of the changes on which Mr. Johnson will report will be that which permits a member to borrow against his insurance equity for the purpose of paying assessments. Another will be the reclassification of occupations and the removal of several of them from the extra-hazardous list. The insurance in force of the Order as of June 30 was \$278,235,306 and the actuarial on Jan. 1 were \$21,498,574. The ratio or margin of safety, or assets to liabilities was 131.51 per cent. All changes in the laws are made on the advice of the Order's actuaries.

In connection with the boy work program, Mr. Johnson will report on the Columbian Squires (junior order of the Knights of Columbus), the ten night course in "Biology" for all men and the Knights of Columbus Foundation at Notre Dame which trains college graduates in boy guidance and leads to an M. A. degree.

During the course of a year, the representatives of the Supreme Council travel thousands of miles in order to meet the officers and members of each council. They offer suggestions and advice in the conduct of council matters and in turn receive suggestions and information beneficial to the Order at large.

An internationalist is a man who thinks that Uncle Sam ought to feed the world and let Europe bite his hand if it wants to.

rearing pond and feeding station, estimated as follows: last year, 200,000 trout valued at \$6.50 a thousand were placed in the Tahquamenon River feeding station in Chippewa county, June 1—October 1, when the output of 140,000 fingerlings were removed they had a commercial value of \$75 a thousand or \$10,500. The theoretical income of the station for the season was \$9,000. All expenses of maintenance, supervision, feeding, etc., will be computed and deducted from the "income." The division of Fisheries will then be able to determine, Mr. Cook said, whether this feeding station is "paying" and if not, what can be done to put it on a better basis.

Similar treatment will be given all of the hatcheries, rearing ponds, and other trout feeding stations.

"Values, as accurately as possible, will be determined for all species of fish propagated or reared by the state," Mr. Cook stated. "In instances where eggs are taken from wild fish, such as whitefish, pike, perch, and rainbow trout, it will be necessary to make allowance for the fact."

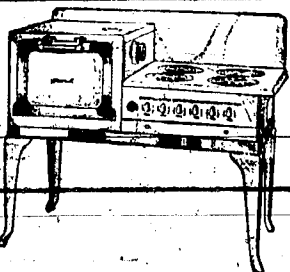

For brook trout, he found that \$1 to \$1.25 a thousand is the average commercial hatchery price for "eyed" eggs. For fry, or fish with the egg sac still attached, the average price is \$4.50 a thousand. After feeding for one month, the price rises to \$5.00 a thousand, with corresponding increase in value until the time the fish are five inches long they are worth \$85 a thousand and \$220 a thousand at eight inches. Brook trout a foot long are valued, alive, at \$550 a thousand.

Illustrating how these prices will be applied in determining hatchery

1—View in the centennial exposition in Antwerp in Belgium, opened by the king and queen of the Belgians. 2—Historical pageant float, during the tercentenary celebration of that town. 3—Mrs. Sarojini Naidu, who was the first woman to lead the Indian civil disobedience campaign and was arrested by the British.

DEPARTMENT CONFISCATES GILL NETS

Five miles of gill nets, valued at more than \$2,000 were confiscated by the Department of Conservation when the Commercial Fisheries Patrol No. 1, under command of Captain Charles J. Allers, discovered the unlicensed nets in Michigan waters near the Beaver Islands.

The nets were taken to the warehouse operated by the Division of Fisheries at Cheboygan.

According to tags on the nets, they were owned by Wisconsin fishermen and had been laid far over on the Michigan side of Lake Michigan.

The nets were seized on the grounds that they were being used in Michigan waters without the necessary license.

RECKLESS DRIVER FINED

Penton Craff changed his plea to guilty in his trial before H. Petersen Tuesday. He was charged with reckless driving while under the influence of liquor. While he claims he was not intoxicated, still he admits he was reckless driving.

He was fined \$50 and costs, amounting in all to \$77.55. He paid the fine and was dismissed.

It developed that he was using auto license plates on his Buick car that had been issued to his son-in-law John Wakeley for a Ford car. Wakeley paid a fine of \$10 for fraudulent use of the license plates.

GYPSIES PICK POCKET

A flock of gypsies, Grayling Wednesday once started out to pick pockets. Two women entered a hardware and asked for a cup that were displayed on a shelf. Mr. Barnett, the proprietor, was reaching to reach a cuppladder to reach the cup when he noticed that his wife's knife and noticed that his wife's bill amounted to \$10.00. He carried loose in his pocket was \$10.00 and \$1.00.

He at once suspected the gypsies. He notified Sheriff Bohannon. The band of gypsies was located at Gaylord and 6-0.

The officers held them until where the gypsies were waiting. Sheriff Bohannon and Deputy Quigley brot the gypsies back to Grayling next set. Matson defeated Eddy 6-0. In the first match, Matson was able to as well as defeating her in the last. Matson had a steel racket which she used in swinging the ball so that he would not be compelled to return and serve out his time. In the fourth match, Matson defeated about nine months, according to his story.

CHEBOYGAN WIN FROM LOCALS

Last Saturday morning at ten o'clock, the Cheboygan High Tennis team met the Grayling High Tennis team in an exciting match on the right against him. A good crowd of tennis enthusiasts witnessed the games and cheered for the teams.

The players for Grayling were: Matt, Keyport, Bugby and Hanson; for Cheboygan, Eddy, Dore, and Matson.

The matches started with Matson and Keyport playing doubles with Eddy and Bugby. Their score ending in both sets, 6-0 and 6-0.

In the second match, Bugby and A. Matson played the McCray twins. The latter says that as much as 200 gallons of gas have been stolen from these machines. Loper was caught in the act of robbing one of the machines. He claims that that was the only time he had taken any, and he claims to know the names of others who had done some of the pilfering. He hoped to know the information of the police authorities, but he would not be compelled to return and serve out his time. In the fourth match, Matson defeated about nine months, according to his story.

ATTEND MEETING OF WOLVERINE ASSN. AT ONAWAY

The fifteenth annual meeting of the Wolverine Association Order Eastern Star was held at Onaway on May 23rd. Several members of the Grayling Chapter attended, including Frank Barnett, Mrs. Wm. McNeven, Mrs. Jess Schoonover, Mrs. E. J. Olson, Mrs. Leo Jorgenson, Mrs. Chas. Fehr, Mrs. E. P. Matson, Mrs. Joe McLeod.

The meeting opened with an afternoon session at the Masonic Hall. At six o'clock a banquet was served followed by the evening session of the program. The ceremony of initiation was conducted by selected officers of various chapters. Frank Barnett, acting as Associate Patron and Mrs. Laura McLeod acting as Elctra. The work was well done and highly commended.

Mrs. Sue Kaushaugh, worthy grand matron, was guest of honor and conducted a school of instruction, followed by introduction of new 1930 association officers which are as follows:

President—Josephine Barber, Rose City.
First Vice Pres.—Percy F. George, Wolverine.
Second Vice Pres.—Sarah Parks, Cheboygan.
Secretary—Jennie Lazenby, Rose City.
Treasurer—Clara Sargent, West Branch.
Chaplain—Abbie McVey, Mackinaw City.
Marshal—Ida Schoon, Alpena.
Organist—Ettie Morrison, West Branch.

Those who attended report a very enjoyable time. The 1931 Wolverine Association will meet at Cheboygan.

Charles Loper, claiming that he had stolen from Columbus, Ohio state prison, was arrested Tuesday by Sheriff Bohannon, charging him with stealing a gasoline from State Highway department tractor and newer shovel.

The complaint was filed by Harold Chff, superintendent of maintenance. The latter says that as much as 200 gallons of gas have been stolen from these machines. Loper was caught in the act of robbing one of the machines. He claims that that was the only time he had taken any, and he claims to know the names of others who had done some of the pilfering. He hoped to know the information of the police authorities, but he would not be compelled to return and serve out his time. In the fourth match, Matson defeated about nine months, according to his story.

STEALING GAS FROM STATE TRACTOR

Charles Loper, claiming that he had stolen from Columbus, Ohio state prison, was arrested Tuesday by Sheriff Bohannon, charging him with stealing a gasoline from State Highway department tractor and newer shovel.

The complaint was filed by Harold Chff, superintendent of maintenance. The latter says that as much as 200 gallons of gas have been stolen from these machines. Loper was caught in the act of robbing one of the machines. He claims that that was the only time he had taken any, and he claims to know the names of others who had done some of the pilfering. He hoped to know the information of the police authorities, but he would not be compelled to return and serve out his time. In the fourth match, Matson defeated about nine months, according to his story.

QUEEN TO BE HIGHLY ENTERTAINED

Who will be the queen of Eastern Michigan? Somebody living in any of 50 towns from Mackinac south to Flint will be on a train for Florida next winter, looking back to the scene of her triumph at the second annual Eastern Michigan Water Carnival at Bay City, July 31, Aug. 1 and 2.

With queen contests due to start throughout the eastern half of the state in every town, a look ahead at what the lucky girls who are named winners in their own towns will have as their reward will not be amiss.

She will arrive at Bay City Wednesday afternoon, July 30, and will be entertained during the evening. Thursday after luncheon she will ride in a place of honor in the parade of Bay City, and late in the afternoon, possibly in the evening, there will be the judging to see who will be Miss Eastern Michigan, 1930.

Those 50 girls who are in the contest will be members of the court of honor to the queen, and throughout will preside over all the activities of the carnival. These include the motorboat races, the swimming championships of the state, the water sports, the dinners in the evening, and many other things. There will be a final wind-up banquet, riding in some of the Great Lakes' finest yachts, possibly airplane trips—thrills galore and pleasing.

Each girl will be quartered with her chaperone at the Hotel Wagonah at Bay City, and her expense during the time she is at the carnival will be borne by the committee. And the winner, Miss Eastern Michigan, 1930, can look forward to the most exciting time of her life next winter when she represents this section at the great national contest at Miami.

FIRE GETS AWAY FROM FISHERMEN

When forest fire wardens answered a call to the banks of the Manistee River, they found a deserted fishing camp, burned. The tent was in ashes. Two fish rods and reels were scorched. A pan of fish and a pan of beans, the abandoned camp fire had been charred to cinders.

Two anglers, frightened when their campfire got out of their control just as they were preparing a meal, ran away. The fire they had permitted to start burned over ten acres before it was placed under control.

It is said that wild life vanishes from the wide open space. Maybe it has gone to the cities to carry on.

Something to Think About!

When you plan on re-roofing your house we can not only save you money on your roofing material, but you are employing GRAYLING LABOR to do the work, who in turn leaves the money in your home town.

Outside roofing concerns have no interest in Grayling except the money they can take away with them, and if past experience is any criterion they do not give you value received for the money you pay them.

Last year one roof was put on in Grayling for the sum of \$205.00 that we could have furnished with Grayling labor for \$137.50, saving the owner \$67.50.

And Here Is Something Else to Think About!

Last year the Grayling Box Company paid out in salaries and wages exactly \$53,165.37 to employees, and in addition to this we purchased Jack Pine Bolts FROM LOCAL PEOPLE amounting to \$22,710.32 or a total of \$75,875.69 that was left right here in Grayling and which was distributed among the merchants.

We are not asking anything unreasonable then, when we ask you to support your local institutions and industries.

Let's all Work Together for a Bigger and Better Grayling.

EVERY IDLE WORKMAN in this country could be put to work within a short time if we had a tariff which measured the difference in labor costs at home and abroad, but that is entirely too practical and immediate a remedy for what ails us to appeal to the economic crystal gazers. They prefer foreign goods on the store shelves to American workmen on the factory payrolls.

News Briefs

Buy genuine Deauville Sandals for women, \$4.00 to \$5.50 at Olson's. Adv.

Miss Viva Mae Hoesli, accompanied by George Whikke and Charles Bork of Detroit, spent the week end with the Chris Hoesli family.

Emil Niederer and brother Fred motored to Gaylord Saturday, calling on Hans Niederer who has been seriously ill for the past few weeks.

Miss Ella Hanson arrived home the latter part of the week from Ann Arbor owing to illness. Miss Ella will not return to the University this year to complete the term.

Mrs. Gollen's Way-Side Inn at Lake Margreth is now open for the season for business. Good things to eat and drink amidst cozy, inviting surroundings. You are always welcome.

Mr. and Mrs. Joseph Dingeman (Loretta McDonnell) of Detroit are rejoicing over the birth of a daughter born on Monday, May 19th. They have named her Valta Elaine.

Favors, a birthday cake and everything that goes to make up a birthday party made its appearance yesterday afternoon at the home of Miss Fern Armstrong. It was Miss Patricia McKenna's eighth birthday and her guests were eight of her schoolmates.

Mr. Fred Niederer and Ernest Borchers who have so successfully operated the Grayling Greenhouses the past three years have purchased same from the Hanson Estate, taking possession May 1st. They are to be congratulated on the wonderful way they have carried on the business, and the service they have rendered to Grayling and surrounding country, always being kind and courteous to all who wished to call. Grayling wishes them much success for a very prosperous future.

Miss Helen Woodburn, valedictorian of the 1930 graduating class, having received the highest average in commercial work, has been offered a \$100 scholarship by the Kalamazoo Business Institute. Miss Effie Hunter who also ranked high in commercial work and had the second highest average in the class, received a \$50.00 scholarship by the same school. Both these ladies are planning to enter the Institute at Kalamazoo this fall and the scholarships they have earned will be applied on their tuition. These ladies are to be commended highly for their excellent work and we are confident they will make a good record at college.

Who's Who?
And Why?

Protect Yourself

WHEN you buy paint, you should get protection. The amount of protection you get, of course, depends upon the quality of the paint you buy.

Because Valdura Asphalt Paint contains only the very highest grade materials—because the base is genuine 99.5% pure Gilsolite Asphalt (nature's own preservative)—and because of the extreme care taken in its manufacture, you get the utmost in paint when you buy Valdura—therefore, real protection!

Sorenson Bros.

The Log Office Says

Interesting bits of news and comment about Northeastern Michigan gathered by the E. M. T. A.

Tables Getting Ready For the Fatted of \$3. This was in the days when Henry Stuart opened the first saw mill in that territory and cut 8,000 feet of the Tri-County Sportsmen's feet of lumber in a day with an up-club meet in Mio, June 13. It looks right saw!

Wild Life Sells Property. The financial value of the picturesque wild life of East Michigan was emphasized again in our office recent when H. A. Kurasch, of Alpena was telling us of his methods of selling real estate. "You realize how interested people are in the wild life of the woods when you are in my business," said this enthusiast. "Deer, fox, rabbit—all of which find harbor along the dense swamps of Alpena County—are aids to selling land for summer homes." In wild life motion pictures, taken by Fred Kurasch, a brother who is throughout the state, issued by Ralph E. Burger, vice-president, and Carl E. Behrens, economist of the Union on one negative. And picture studies Guardian Trust Company, Detroit, of the American bald eagles and their nests taken on the shore of Thunder Bay, interest tourists and prospective residents all over the country.

Tourist Trade Responsible for April's Gain. It begins early, this tourist trade influence on business in general. In the recent statement of conditions throughout the state, issued by Ralph E. Burger, vice-president, and Carl E. Behrens, economist of the Union on one negative. And picture studies Guardian Trust Company, Detroit, of the American bald eagles and their nests taken on the shore of Thunder Bay, interest tourists and prospective residents all over the country.

Shoreline Assured From Omer to Au Gres. Full construction this year of that section of the Shoreline Highway between Omer and Au Gres, has been ordered by the Administrative Board, it means that this summer we will be one link nearer to the completion of that chain of beautiful road which will encircle the state and which will mean greatly increased prosperity for all of Michigan.

Those Were the Days! This summer, when you're taking a trip to Chequamegon to see the Chesaning Big Rock, famous since the days when six or seven hundred Chippewas when near it, notice the distance from Chesaning to Owasco. The story was told to us this week that back in 1860, ox teams hauled 500 feet of lumber from Chesaning to Owasco and got for the lumber company a bill at the store for the value every state in the United States.

Some liberals have referred to the Chandl Plain Dealer declares Gandhi as the George Washington of India. But can you imagine what would have happened to the thirteen colonies if George Washington had pursued Gandhi's pacifist tactics?

Burn \$35,000,000-000 in Bonds. Paris—Bonds valued at more than \$35,000,000,000, representing the German reparations debt to the Allies under the Dawes plan, were burnt in consequence of the inauguration of the Young plan, which calls for payments to the creditor nations through the new Bank for International Settlements. This incineration, however, was witnessed by representatives of the various nations involved, and its smoke, so to speak, was the signal for the commencement of withdrawal of French garrisons from the Rhineland.

Hospital Notes

Mrs. J. W. Perkins, who has been a patient in the hospital for several weeks, recovering from an operation, is getting along nicely and expects to leave the hospital soon. Mr. Perkins has also been a patient at the hospital for the past two weeks and was dismissed Monday.

Mrs. C. R. Keyport underwent a major operation at Mercy Hospital Tuesday morning, which was performed by Dr. Brooks of Detroit, assisted by two other surgeons. Mrs. Eva Carson of Roscommon and Mrs. Helen Corwin are caring for Mrs. Keyport and report she is getting along as nicely as can be expected. Miss Rette Leadbeater of the Nurses' Training School, has been ill for the past week at the hospital. Geo. Alexander is getting along nicely and no doubt will leave the hospital soon.

Mrs. Lovelace of Cheboygan who is a patient at the hospital, is recovering nicely from her recent operation. Mr. Markby who underwent a minor operation at the hospital recently is improving nicely.

Miss Nina Finning, a student nurse at the hospital, has been enjoying a two weeks vacation from her duties at the home in Vanderbilt. She is expected to return the latter part of the week.

Worship hour at 7:30 p.m. Minister—Dr. D. H. Glass, District Superintendent.

We extend a cordial invitation to all to join in these unique services. If weather is not favorable, the services will be held in the Church.

GETS 7-15 YEARS FOR ROBBERY

Pontiac, May 27.—George Austin, 18, of Grayling, under a 7½ to 15 year sentence in the Ionia State Reformatory for breaking and entering, was taken to prison this afternoon from the Oakland County jail. He was sentenced by Judge Frank L. Covert after he violated terms of probation.

The youth was arrested here a month ago and pleaded guilty to breaking and entering. He was released on probation, but rearrested for a similar offense in Grayling last week. Under Sheriff Frank Greenan returned him to Pontiac. Detroit Times.

NEWS REVIEW OF
CURRENT EVENTSJames J. Davis and Pinchot
Victors in Pennsylvania
Republican Primary.By EDWARD W. PICKARD
JAMES J. DAVIS, secretary of labor, won the Republican nomination for United States senator from Pennsylvania in the hot fight with Senator Joseph R. Grundy, and his primary was decisive.

Gifford Pinchot, with his heavy vote in the upstate counties, managed to defeat Francis Shank Brown for the gubernatorial nomination, his plurality being about 16,000. The returns from the large cities of the state had seemed to give Brown the victory, but this was reversed when the country vote came in, Pinchot winning in 60 of the 67 counties.

William E. Vare with his powerful Philadelphia organization both won and lost, for he was supporting Davis and Brown. Eight years ago Pinchot captured the gubernatorial nomination from Allen, another of Vare's proteges. The nomination of Mr. Davis for senator was said in Washington to be highly satisfactory to President Hoover, and certainly many of the Republican senators were pleased by the defeat of Mr. Grundy.

There were two candidates for both the nominations, F. H. Bohlen for senator and T. W. Phillips, Jr., for governor, because of help from Philadelphia they cast a large vote. Davis is presumably a dry; Pinchot cannot be an ardent dry, and Brown urged a referendum on state prohibition enforcement.

There were no contests for state-wide offices in the Democratic party. Sedwick Kistler of Lock Haven, having come the minority party nominee for senator and John H. Hemphill of West Chester for governor.

WARREN E. GREEN of Hazel, "dark horse" candidate, was nominated for governor by South Dakota Republicans at their state convention in Pierre, over four other candidates, including Miss Gladys Pyle, secretary of state.

Miss Pyle led in most of the ballots but was defeated when Brooke Howell of Frederick, her strongest opponent, withdrew. Howell's support then was thrown to Green, who received more than the majority of 55,000, necessary to nomination, on the eleventh ballot.

AFTER many months of work, the tariff bill was submitted to congress for final action, which, it was hoped, would be taken within a week or ten days. The conferees of the senate and house reached complete agreement on the few items remaining after the export debenture and flexible tariff features had been settled. The debenture clause was eliminated as the house demanded. A compromise was adopted on the flexible tariff provision which is closer to the house than the senate plan. Under it the President retains the power to change duties, as in the house bill, but on the basis of differences in costs of production as provided in the present law rather than to equalize competitive conditions as provided in the house bill. The tariff commission will be continued as a bipartisan commission of six members, as provided by the senate bill, instead of a non-partisan commission of seven, as in the house bill.

Leaders of both the Democrats and the radical Republicans have issued statements attacking the tariff bill as it stands.

IN THEIR eagerness to obtain ratification of the London naval treaty the sponsors of that pact in the senate last week looked with some favor on a proposal of Senator Claude A. Swanson of Virginia that there be an exchange of notes by the United States, Great Britain and Japan to close a "loophole" in the treaty which might allow Great Britain 23 big cruisers a year after the United States reached its full treaty strength of 18. The Virginia senator, a member of the foreign relations committee which has been holding hearings on the treaty, said that, unless the "treaty ambiguity" on the point could be cleared up by an exchange of notes, the senate would be justified in adopting a reservation to safeguard the American position.

Several rear admirals, members of the navy general board, told the committee on foreign relations and naval affairs why they objected to the treaty, asserting that it favors Great Britain and Japan at the expense of America. But, as was said a week ago, the critics of the pact in England and Japan are equally sure that it is unfair to their countries. There is little or no doubt that the treaty will be favorably reported to the senate by the foreign relations committee, but whether or not it will be passed on by the senate before the winter session is uncertain.

WITHOUT discussion and without a record vote, the senate confirmed the appointment of Owen J. Roberts of Philadelphia to be associate justice of the Supreme Court of the United States, to fill the vacancy caused by the death of Justice Edward T. Sanford. The judiciary committee had unanimously approved the appointment, and when Senator Joseph T. Robinson, the minority leader, said he had no objection to immediate consideration the question of confirmation was put and carried without a negative vote being heard.

PRESIDENT HOOVER went out to sea aboard the new cruiser Salt Lake City, and off the Virginia Capes reviewed a large portion of the American navy. Fifty-three battleships, cruisers, aircraft carriers, destroyers and submarines took part in the program, which included an aerial attack against capital ships from the flying decks of the aircraft carriers Lexington and Saratoga and the staging of a mimic naval engagement which emphasized this country's shortage in

cruisers. During the eight hours spent aboard the Salt Lake City the President witnessed the launching of planes from catapults, watched a naval plane hit on to the giant dirigible Los Angeles and obtained a glimpse of the navy air arm's latest method of attack against surface ships, the diving bomb attack.

CHARGES of stock market speculation, made against Bishop James Cannon, Jr., of the Methodist church, South, by Josephus Daniels and some twenty other laymen, were declared not substantiated by the evidence presented by the episcopacy committee of the church at its conference in Dallas, Texas, so the bishop was considered exonerated. He told the committee that he had fallen into the hands of "a bunch of sharpers" was sorry for what he did and would not do it again.

F. SCOTT MCBRIDE, general superintendent of the Anti-Saloon league, continued as a witness before the senate lobby committee, and was severely rebuffed by Senator Blaine of Wisconsin, a wet, during several sessions. McBride, however, frequently left his own in the scrap, and on at least one occasion was loudly cheered by the audience, which enraged Mr. Blaine.

HAVING been revised by the senate commerce committee, the house rivers and harbors bill was reported to the senate, and it was believed it would be enacted into law before the adjournment of congress. As finally agreed upon the bill carries authorization amounting to upward of \$125,000,000, compared with \$440,000,000 as passed by the house. Senator A. H. Vandenberg of Michigan asserted that actual cost of all projects authorized would reach \$335,000,000.

The bill includes \$7,500,000 for the completion of the controversial Illinois waterway project, \$7,500,000 for beginning the deepening of the upper Mississippi river from six to nine feet, an authorization of \$28,000,000 for deepening great lakes channels and an authorization permitting the government to take over the Erie and Oswego large canals in New York state. One of the final items added to the measure by the committee was an authorization of \$5,000,000 for improvement of the Tennessee river. Senator Vandenberg made unsuccessful efforts to incorporate in the Illinois waterway section a limitation of 1,600 cubic feet per second upon the diversion of water to be allowed at Chicago.

HANFORD MACNIDER of Iowa, former assistant secretary of war and also a former national commander of the American Legion, was nominated by President Hoover to be minister to Canada, to succeed William Phillips, resigned. Mr. MacNider is forty years old, a banker, and won the D. S. C. when serving overseas with the second division.

BILLS reported favorably to the house by its judiciary committee provide for the appointment of eleven new federal judges as a step toward relief for congestion in the courts. They would be distributed as follows: New York, Southern district, two; New York, Eastern district, one; California, Southern district, one; Texas, Southern district, one; Missouri, Eastern district, one; Oklahoma, Western district, one; Michigan, Eastern district, one; Louisiana, at large, one, and District of Columbia, Court of Appeals, two.

Previously the committee had reported individual bills for two new judges of the District Supreme court, and one each for West Virginia, Kentucky, and Minnesota.

GERMANY'S big dirigible, the Graf Zeppelin, commanded by Dr. Hugo Eckener and carrying passengers, made a successful and rather uneventful trip from Friedrichshafen to Pernambuco and Rio Janeiro, Brazil, last week. But one stop was made en route, at Seville, Spain. The proposed route of the Zeppelin thereafter will take it back to Pernambuco, to Havana, to Lakehurst, N. J., and thence back to Germany. Owing partly to head winds the speed of the big ship was not unusual, being from 50 to 60 miles an hour.

NATIONALISTS of India made several attempts to raid government salt works, especially those at Dharana, and there were violent clashes with the police in which about 800 of the natives were injured. Mrs. Sarojini Naidu, the poetess who succeeded Mahatma Gandhi as leader of the campaign, was arrested, as were many of her lieutenants. The leadership of the volunteers then fell to V. J. Patel, resigned speaker of the legislative assembly. The spokesman of the India office in London said the worst was over and the period of reconstruction would soon begin, which may be over-optimistic.

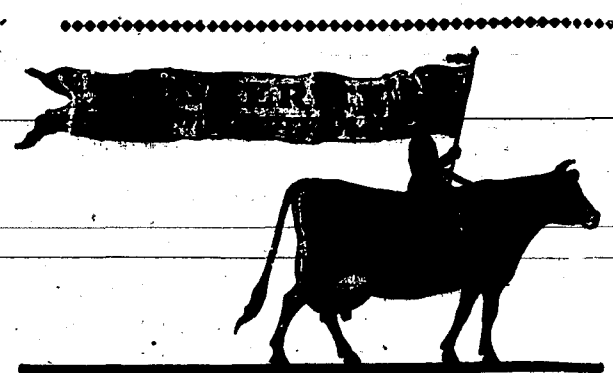

OPERATION of the Young plan for reparations and of the Bank of International Settlements at Basel, Switzerland, went into effect officially, the opening being marked by the burning of billions in German war bonds of the Dawes plan in Paris. At the same time the evacuation of the third zone of occupation in the Rhineland was begun by the French, with the assurance that the final zone, including Mayence and the Palatinate, would be freed within a few weeks.

IF THE now completed poll taken by the Literary Digest is a true indication of the nation's sentiment, the population of the country is 40 per cent wet, 20 per cent moist and 31 per cent dry.

A total of 4,806,464 votes were cast in the poll. Of these 1,943,952, or 40.48 per cent of the total, favored outright repeal of the Eighteenth amendment and all that goes with it.

Another 1,309,314 cast their ballots for modification of the Volstead law. This was 20.17 of the total. The rest, or 1,494,098, 30.46 per cent, urged strict enforcement of the existing measure.

AGRICULTURAL NOTES

Seed Pieces Affect Yields of Potatoes

The planting of small-sized seed potato pieces decreases the size of the crop and increases the number of tubers which are affected with hollow heart, according to data obtained in two years of experiments conducted by the farm-crops department of Michigan State College.

The tests were made at the Rossman Brothers Farm at Lakeview, the W. K. Kellogg Farm at Augusta, and the Coffey Farm, East Lansing. Certified Russet Rural seed was used in all of the trials.

The sizes of pieces used were one-half ounce, one ounce, one and one-half ounces, two ounces. The average yields in bushels per acre obtained for the two years were, with one-half ounce pieces, 91.4; with one ounce, 108.7; with one and one-half ounce, 123.4; and with two ounces, 129.4.

No hollow heart was found in any of the potatoes grown in 1929, which was due to favorable weather conditions. In 1928, the crop grown from the half ounce pieces contained twice as many hollow potatoes as the crop grown from the one and one-half ounce pieces.

The seed should be cut in thick pieces to avoid drying out in the soil after it is planted. Approximately 15 bushels of seed cut to one and one-half ounce size will be needed to plant one acre.

The tractor mow saves time and labor for cutting hay. Some of these mowers are attached directly to the tractor and are driven by a power take-off; others are drawn by the tractor as a separate unit.

Chicks will grow faster if their ration includes sour milk, skim milk, or buttermilk in addition to the grain feeds and green feeds. Mix milk with the mash if wet-mash feeding is preferred.

Fresh cream for butter-making should never be mixed with cream from previous skimmings until it has been cooled. The addition of warm cream lowers the temperature of the older cream and hastens souring.

Another petrified forest, the only one so far discovered with the trees lying as they fell millions of years ago, is reported to the U. S. Forest Service. The forest, which covers several acres, was found by a road-building expedition on the lower Yellowstone reclamation project. Some of the trees are 10 feet in diameter and more than 100 feet long.

Increasing knowledge of parasitic diseases and their control is putting the turkey industry on a more stable basis, says A. R. Lee, poultry husbandman of the U. S. Department of Agriculture. He says there are now more than 3,500,000 turkeys on farms in the United States. They constitute

14 per cent of all poultry. The crop of market turkeys in 1929 increased about 3 per cent over that of 1928.

Feeding tests by the U. S. Department of Agriculture show sorghum to be one of the cheapest sources of protein grown on the farm for fattening hogs. Soybeans have a tendency, however, especially if fed in large quantities, to make soft pork. The department is cooperating with a large number of States in the study of this subject.

The best preventive against tuberculosis in swine is to have a tuberculin-free herd of cattle and a flock of poultry free from tuberculosis. Hogs usually contract the disease by feeding on unsterilized skim milk from tuberculous cows, by following tuberculous cattle in the feed lot or by association with tuberculous poultry. In the Corn Belt the poultry are a most prolific source of the disease in swine.

Summer as well as winter is a good time to trap moles for the fur. In a collection of mole skins taken in the State of Washington during all months of the year, the presence of "prime" skins was found to be nearly as large in August as in January. In the summer season traps should be visited several times a week as the hair in a mole pit soon becomes loose even in moderately warm weather.

Fall-born beef calves on the farm should be weaned after they are on pasture in the spring. Then they gradually increase grain allowance. Feed hay and silage later in the summer. If intended for baby fat, the calves should go into dry lot for finishing at the end of the pasture season. Calves not intended for baby fat need not get grain until they are in such large quantities. They can utilize much more roughage, such as stalks in the fields, meadow silage, and straw with cornmeal meal as a supplement.

Cracks in a new floor usually do not appear until several months after a house is occupied and it is too late to do anything about it, says the U. S. Forest Service, which tells how to prevent cracks in new floors.

Cracks that develop in a few weeks or months in a new wall-board floor are the result of a change in the moisture content of the wood. Get lumber that has been kept under dry conditions and do not have it delivered on a damp or rainy day. Be sure that the plaster or masonry walls are dry before the flooring is delivered. Eliminate all badly cracked boards or use them in inconspicuous places. Unless the weather is very warm and dry, keep the temperature of the house at from 62 to 65 degrees from the time the floor is delivered until it is painted.

250 FAMOUS SAVANTS
HELP EDIT NEW BOOK

CHICAGO.—More than 250 authorities in the realm of human knowledge, including officers in President Hoover's cabinet, diplomatic representatives of foreign governments, scientists, military experts, business leaders, clergymen, university professors, and officials of national associations have contributed the results of exhaustive research to their respective fields to the new World Book Encyclopedia, which has just come off the press here.

The new World Book Encyclopedia, said Prof. V. O'Shea, of the University of Wisconsin and editor-in-chief of the work, is the most comprehensive collection of information on every conceivable subject, is a complete reference library, presenting the world's knowledge in interesting form, and is showing a surprising volume.

"International peace parties have turned men's thoughts to world affairs. Practical aviation has compelled attention on recent advances in science. The facts in their modern science or popular form are more interesting than fiction. They have a best-selling touch."

The new World Book Encyclopedia, said Prof. O'Shea, "has been compiled with a view toward showing how modern discovery is influencing human life socially, politically, physically, and morally. It presents ancient knowledge in new phraseology and modern achievements in every field of human interest in understandable and entertaining form. The new encyclopedia cost more than \$1,000,000 to compile and represents ten years of research. More than 14,000 illustrations, supervised by Gordon Slight Clair, are included in the twelve-volume work."

BEST SELLER RACE

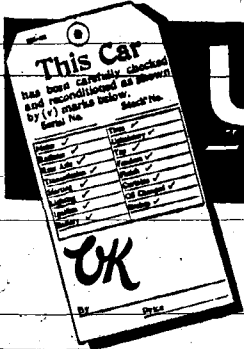

CHICAGO.—Best-sellers of the future will be non-fiction. The present trend in books is from fiction to facts, according to E. D. Foster, managing editor of the new World Book Encyclopedia, which has just come off the press here.

"Even detective fiction is dropping behind in the race for best-selling honors," said Mr. Foster. "On the other hand, history is being put under the microscope to provide characters for the new humanized biographies. Popular, written works on scientific subjects are enjoying unprecedented sales. In this connection, it is to be noted that sales of the new World Book Encyclopedia, which in addition to being an exhaustive collection of information on every conceivable subject, is a complete reference library, presenting the world's knowledge in interesting form, are showing a surprising volume."

"International peace parties have turned men's thoughts to world affairs. Practical aviation has compelled attention on recent advances in science. The facts in their modern science or popular form are more interesting than fiction. They have a best-selling touch."

"Flower pickers" constitute the latest class to be listed as causes of forest fires in Michigan. Within the past two weeks forest fire wardens have listed camp fires of flower pickers as the causes of two forest fires.

It is reported that Joseph Stalin, secretary of the Communist Party in Russia, has purchased nine automobiles in England at a cost of from \$13,000 to \$15,000 each. Of course these are for the proletariat.

Save money
in buying Used Cars
See your Chevrolet Dealer... first~USED CARS
—WITH AN OK THAT COUNTS

Chevrolet dealers offer you an exceptional used car purchase service because they work under a uniform factory plan that makes used cars as important a part of their business as new cars.

The famous "OK that Counts" tag assures every buyer that each used car bearing it has been thoroughly reconditioned by expert mechanics to give thousands of miles of dependable, economical service.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES
OF THE AVALANCHE OF 23 YEARS AGO.

Thursday, May 30, 1907

Mr. and Mrs. Hans Michelson of Hunts Spur, are here for a week's visit with old friends.

D. S. Waldron has assumed the position of night clerk at the "New Russell" which will be appreciated by the patrons.

A fine flagstaff was raised yesterday in front of the G. A. R. Hall from which will float a flag procured by the W. R. C. "Long may it wave."

R. Hanson and wife and Mr. Bar with his wife and child of Lewiston expect to start for a visit to Denmark this week. Our people will unite with the Avalanche in wishing them a happy trip and a safe return.

Alfred Sorenson will go to Chicago next week to a social school to perfect himself in certain lines of business. He will be missed while he is absent, but as he is an all-around hustler, will be remembered and gladly welcomed back.

The school house built 20 years ago two miles north of the village was bought last fall by F. S. Burgess and converted into a meat market, but is remodeled into a meat market, but will be occupied by Elmer H. Peterson, who returns from Lewiston to his R. R. work here.

The electric lighting plant was suddenly N. G. Sunday morning by the burning out of the main line of the central station and several fires about the village. It left us dark at 10 o'clock. Loss was quite a little.

Our home has been made glad this week by the presence of our 11th brother, Albert Palmer of Marshall, Neb. He is 82 years of age, but is not as active as he was 10 years ago, thinks he can yet show the kids how to work. He is grandfather to Eugene and Misses Marcia and Joy Kendrick who will be remembered by members of our family here for several years.

Ed J. Hovius, Sergeant-Conger or some other fellow gave our people a genuine surprise Monday evening. Rain had fallen most of the day Sunday with the mercury at 60 degrees, but in the morning it had dropped to 30 degrees. Snow was two inches deep and continued falling till noon with a stiff northwest wind. Ugh!

A wave of profound sorrow passed over the world last Sunday as the news of the death of Mrs. McKinley was flashed over the wire, and the

memory of the assassination of her noble husband, Pres. Wm. McKinley was called to mind.

About six o'clock Sunday morning a bolt of lightning struck a pole near the home of Mr. Skingley in Beaver Creek. Staying on the wire part of it entered the Skingley home and slightly injured their phone, tore off a great strip of wallpaper and splintered a window sill. At the same time the phone and a screen door at Mr. Lov's were entirely destroyed. Enough still remained on the wires to burn out the fuses of the lightning arresters at L. E. Parkers at Roscommon.

Last Friday evening a large party of young people invaded the peaceful home of Mr. and Mrs. John Skingley in Beaver Creek. About 10 o'clock they took possession of the barn where dancing became the order of the evening till about midnight when the hostess announced that refreshments were waiting at the house. Everyone seemed hungry as there was a general movement toward the house where a generous lunch and hot coffee were served. After supper music and dancing were again in order till near morning when all departed with but one regret—that all good times must end. The pleasant event will long be remembered by those present.

C. E. Kelley of Frederic had the fortune of losing his warehouse by fire last Friday morning about 2 o'clock. Loss was quite a little.

At her home in this village, Sunday morning, May 26, Anna, wife of R. P. Olson, aged 25 years. After many months of intense suffering, caused by various ailments and fortitude, the Angel of Death came kindly welcome to her relief. She looked for by her friends, and longed for by her, the blow at last seemed sudden.

The funeral services were conducted by Rev. Kildegaard at the Lutheran church, which was crowded with sympathizing friends. Tuesday afternoon, and the worn and wasted body laid to rest in Elmwood cemetery.

The L.O.T.M.M., of which deceased was a member, attended in a body, as did also the Citizens' Band of which the stricken husband was a member since its organization.

The floral tributes, expressive of the sympathy of the community, was exhibited on every

LACK OF THRIFT IN THE FORM OF CARELESSNESS EXACTS HEAVY TOLL OF LIFE AND PROPERTY

(By S. W. STRAUS, President
American Society for Thrift).

Within recent weeks millions of dollars in property has been destroyed through forest fires. We are just at the beginning of the summer. As the season progresses, there will be, unfortunately, a repetition of these conflagrations in various parts of the United States.

Forest fires are bad not only because they destroy timber but because they denude land which immediately begins to deteriorate in value. The United States can ill afford to lose any of its forests and it is particularly unfortunate that these losses occur largely through sheer negligence. Most forest fires, it has been said, are due to carelessness in throwing away lighted matches, cigar or cigarette butts or through the careless handling of fire by campers.

America is paying all too heavily for the vice of carelessness. Most assuredly we need to learn lessons in thrift along these lines.

An insurance company, which recently made a study of accidents in homes found that they total \$3,000,000 per year of which 17,000 result in deaths. There is a property loss of close to \$500,000,000 yearly due to preventable fires. More than 2,500,000 workers are injured in industry each year which includes thousands of fatalities and thousands of permanent injuries.

The elimination of this tremendous waste of life, limb and property must rest almost entirely with the individual. The installation of safety devices and the enactment of laws and regulations can only partly solve the problem. Individuals must learn more and more the advantage and value of being careful in everything of not taking chances or keeping their wits about them at all times of cultivating constant habits of watchfulness. To do this is a splendid example of thrift.

Inside Information

Try pineapple and cabbage salad with mayonnaise.

Scalloped apples may be served for dessert or with the main course at dinner, much as apple sauce is served.

Many people like to have a leg of lamb boned for easy carving. You can stuff the cavity with a savory breadcrumb stuffing.

Make cinnamon toast by putting a mixture of one-fourth cup of granulated sugar and one teaspoon of ground cinnamon into a large shaker, and sifting it on hot buttered toast.

Do not wrap your ice in paper or cloth. Melting ice saves food by reducing the temperature of the air in the refrigerator.

Add about a tablespoon of acid—lemon or vinegar—to the seasoning when starting a mayonnaise dressing, then add the egg yolk and begin beating. Add oil a little at a time, beating steadily, and when the mixture begins to get thick add the remaining acid and oil.

When vegetables or fruits are cut for a salad, the pieces should be large enough so the salad will not be mushy after the dressing is added. All ingredients should be crisp and cold, and with no clinging to lettuce leaves. Add dressing just before serving for dressing tends to wilt the vegetables and salad greens. Potato salad is an exception to this rule.

Make for the littlest children—several two-piece outfits consisting of bloomers or panties on a sun suit top, and a matching dress to slip on over the sun suit when the sunning time is over. At first sun baths are given for short periods only, until the child's skin is accustomed to the strong ultraviolet rays. The little overdress will also be useful in taking a child through the streets, to a neighbor's or to a playground where the sun suit part can be worn suitably.

Large canned peaches may be drained and broiled. Place in a shallow baking dish pit side up, add a little melted butter and a very little salt. Broil until heated through and lightly browned. Serve hot with the meat course or for dessert.

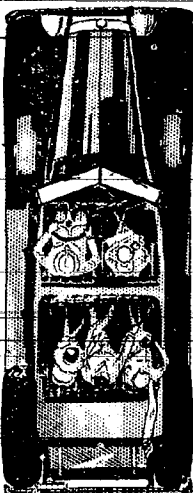

Try peppermint ice cream with chocolate sauce. Here's a recipe from the Bureau of Home Economics: Heat half a cup of single cream. Add ¼ teaspoon of salt, and two-thirds cup of sugar. Stir until the sugar has dissolved. Mix with the remainder of one and a half pints of cream (from which you took the half cup), and half a pint of double cream. Add sufficient food coloring to make a soft green, and enough peppermint essence—about 8 drops—for delicate flavoring. Freeze in the usual way.

For hot chocolate sauce, you will need 2 squares unsweetened chocolate, 1 cup of granulated sugar, ¼ cup of milk, 1 tablespoon butter, ¼ teaspoon salt, and ¼ teaspoon vanilla. Melt the chocolate in the double boiler. Add the sugar, milk, butter, and salt. Cook for 10 minutes or longer. Add vanilla, beat well, and serve hot on ice cream.

KNOTS

Boxes made of knotty lumber, if properly designed, will give as good service in shipping as boxes made of clear lumber, according to tests conducted by the Forest Products Laboratory of the United States Department of Agriculture. Boxes with short, relatively thick sides, made of knotty lumber withstood even more knocking than those made of all clear material.

You DON'T PAY EXTRA FOR THE windshield NOW

Not so long ago, windshields were "front glass"

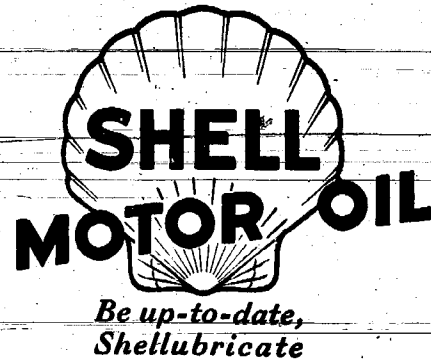

—an accessory. Today, everything about the

automobile is taken for granted. —Especially engine performance, thanks to Shell Motor Oil.

Here is one lubricant which is a step ahead of anything you may have tried. Shell low-temperature refining keeps all the strength and vitality of Nature's best-balanced crude... makes Shell Motor Oil ready now for next year's cars. No wonder so many motorists are changing to Shell. They want the extra margin of protection and the smooth-running, trouble-free performance which Shell Motor Oil provides. Have you tried it?

BURKE OIL CO., GRAYLING, MICH.

AUTO SALESMAN'S DREAM COMES TRUE

Impatient Cash Customer Produces
Bulging Money Belt

The "clean deal cash customer" that rare individual whom automobile salesmen always hope to meet some time, completely upset the marketing routine of the Buick Motors Inc., Philadelphia, during the recent nation-wide Pontiac "Red Rocket" demonstration campaign. One of the demonstrator drivers, at the wheel of a Pontiac Big Six which bore a large red rocket on either side of the body was hailed by a man in the stained attire of a laborer. In hesitating and broken English the man asked for a ride. The driver suggested a route that would permit of an adequate demonstration. His passenger demurred, demanding that he be taken to an obscure address "on the other side of the tracks" in the southern section of the city.

They arrived at a modest cottage from which burst a buxom woman, nine assorted children and a great variety of chattering, chattering group advanced upon the apprehensive driver. Attempting to explain

that he would give them rides in capacity relays but that he intended to be firm about the goat, he was interrupted by the father who drew a bulging money belt from his waist.

"All right. We take it," he announced. The amazed driver explained that he couldn't conclude the deal so informally. Accompanied by approximately half of the family, they drove to the showroom where the "clean cash deal" was consummated. Those was only one hitch: The buyer insisted that his new car be decorated with red rockets exactly similar to the one appearing on the demonstrator. The car was so decorated.

RUSTY ORANGES.

Oranges or grapefruit which have a rusty appearance have been attacked by rust mites, animals so small that it has been estimated that half a million of them could find room on a of the tracks" in the southern section of the city.

Although the food value of such is not reduced greatly, buyers generally prefer bright fruit. Consequently the russets sell at a discount of 25 to 50 cents a box.

GARDEN TALK

Don't put manure in the hole; put it on the top of the mound as a mulch.

There are just three easy-to-remember principles of correct planting:

(1) Plant in masses; (2) Avoid straight lines; (3) Leave centers open.

Plant something. Your pride in your home and your community is judged by the way your place looks. Make it attractive.

Shade trees should be staked the first season after planting, and the soil pressed down firmly. If this is not done the trees will be loosened by wind storms and will lean slightly towards the direction of prevailing winds.

Don't forget to water thoroughly all trees and plants during the first summer after planting.

Evergreens are beautiful the year around but are especially effective in winter. They retain their foliage and live up the landscape when other things are dormant.

The first cost of a tree or plant is a very small item compared to the value of the investment a few seasons later.

Hydrangeas should never be pruned in summer, for they bloom late in summer at the tips of the current season's growth. However, if winter pruning is directed to cutting back the tops of the bushes (contrary to general pruning rules) this will result in vigorous branching and in a liberal show of bloom in the autumn. Thus Hydrangea is a partial exception to the rule of pruning shrubs from the bottom, although a comparatively frequent renewal from the base of each plant will, in the long run, be an advantage to this species also.

If your early flowering shrubs are to yield a maximum of bloom they should be pruned moderately and regularly every year directly after blooming. This pruning must be done skillfully and at the right moment.

Woody climbing vines usually make such extraordinary growth each summer that it is desirable, sometimes necessary, to cut out relatively large quantities of this wood each year. This pruning should be done very early in spring, generally in February.

It doesn't take a very great stretch of the imagination to consider your house and its surroundings as a painting when you exhibit it to a prospective buyer. In purchasing a home, as in buying a painting, the first impression has much to do in determining the decision. Certainly a house situated in the midst of a barren tract of ground will not carry the same feeling tone that the same house would if surrounded by a well-planted lawn and flower garden.

Government experts announce that all of the large sized currency is now about out of circulation. So is most of the new size so far as we are concerned.

Fall Sports Ensemble

An attractive sports ensemble for fall. The coat and skirt are of green broadcloth, while the pullover is of light green jersey. This shows the accepted length for the season.

KNOW TIMBER VALUES

A woodland owner in Maryland received an offer of \$1,500 for a tract of timber, which he was inclined to accept as a fair price. Before the sale was made, however, he asked the State forester to estimate the amount and market value of the timber. The timber was then publicly advertised, with the result that the man who had previously made the \$1,500 offer raised his bid to \$4,500, and the sale was finally made to another person for about \$5,000. Only three months elapsed between the date of the first offer and the final sale. Not only was the original offer increased nearly four times over, but the tract was also left in excellent condition after the cutting.

Local Happenings

THURSDAY, MAY 29, 1930

Mrs. F. A. Eckenfels is ill at her home.

Henry Carlson left for Detroit Tuesday night on business.

Mr. and Mrs. B. J. Callahan had as their guest Mr. Tobban of Kingston, Ontario, last Sunday.

Messrs. Harry and Charles Hanover of Ann Arbor enjoyed the week end at the former's cabin on the river near Frederic.

Henry Peterson of Marquette, a former old resident, was in Grayling dancing party at the home of Mr. this week visiting at the home of Mrs. Fred Hanson. Mr. Peterson at one time lived in Grayling and while here was kept busy shaking hands with old friends.

Word has been received from Dan Villo, Illinois of the marriage of Cooney Blissette to Miss Hazel Pann of that city. The wedding took place on April 23rd. The groom is well known in Grayling, having lived here at one time.

Roy Brown returned Wednesday after a few days spent in Bay City.

See the summerweight Bostonian Oxford for men in black and tan, at Olson's.

Peter Wither of Saginaw visited at the Henry Jordan home over Sunday.

Don't miss the baseball game Friday to be played between Grayling and Lake City High School teams.

The John Brady and B. J. Callahan families enjoyed a visit from Mrs. Patrick Keardon of Mackinaw City Monday.

Miss Elizabeth Matson is the new soda dispenser at the Mac & Gidley Drug Store commencing her duties Monday.

Several men and women enjoyed a week end dancing party at the home of Mr. and Mrs. Mose Collins Saturday evening. The guests left at a late hour, but all having had an enjoyable evening.

Miss Anna Nelson is expected to come from Grand Rapids to spend the week end at the home of her parents, Mr. and Mrs. Julius Nelson.

Our Board of Trade reports having received contributions from Mr. Wm. Rase of Johannesburg and Mrs. E. E. Harwick of Detroit to assist in their advertising campaign for 1930.

Robert H. Gillett of Muskegon stopped over Friday night in Grayling to visit some of his old friends. He is representing the Charles W. Marsh Co. of Muskegon, manufacturers of leather packings. While here he was a guest of Mr. and Mrs. O. P. Schumann.

Odd Fellows memorial will be held next Sunday. The members are requested to meet at the hall at 9:30 a. m. They will attend services at Michigan memorial church at 10:30 and from there will march to the cemetery for the decoration of the graves of departed members and to hold memorial services.

Merion Powell of Elk Rapids has located in Grayling. He is a graduate from a radio school and is an expert radio-trician. He says that he makes radios to order, installs radio sets, adjusts and repairs radios, and erects aerials. He is making his home with Ray Mickle in the old Hans Petersen home on Michigan avenue.

Henry Sahn returned to his home in Canton, Ohio, Tuesday night after a six weeks visit in Grayling with Mr. and Mrs. Holger F. Peterson. Mrs. Peterson is a niece of Mr. Sahn and she was brought up in their home. This was his first visit here and he was so taken up with the country that he is coming again.

H. B. Smith, Saginaw, who owns a summer home on the AuSable river, has leased for a period of ten years, the T. P. Peterson creek, that flows into the AuSable river near the Whip Poor-Will club, for use as a place for rearing trout. Small ponds will be constructed and this year 100,000 small trout, from the Grayling hatchery, will be placed into it and raised to good sized fish and then planted into the AuSable river. It is said that this is an ideal place in which to rear trout and no doubt will be a valuable assistance to the work of the Conservation department in the restocking of the streams with trout. George Knecht has been engaged to look after the ponds and caring for the trout. It is at no little expense that Mr. Smith is doing this work, and a very unselfish act.

Many new shoes added to our \$2.95 bargain rack at Olson's.

Don Cox of Flint spent the week end in Grayling the guest of Miss Kathryn Brown.

The regular meeting of the O.E.S. will be held at the American Legion Hall on Wednesday, June 4th.

Mr. and Mrs. Edgar A. Murray of Detroit are spending several days at the Murray Lodge on the AuSable.

Mr. and Mrs. Emil Giegling returned last Wednesday from Detroit, bringing with them their daughter, Emily Janet.

Miss Margaret Hanson is expected home from Ann Arbor to spend the week end visiting her parents, Mr. and Mrs. O. W. Hanson.

Mr. and Mrs. Marshall Holaday of Detroit are rejoicing over the arrival of a daughter Patsy Jean in their home, on May 23rd.

Miss Anna Nelson is expected to come from Grand Rapids to spend the week end at the home of her parents, Mr. and Mrs. Julius Nelson.

Our Board of Trade reports having received contributions from Mr. Wm. Rase of Johannesburg and Mrs. E. E. Harwick of Detroit to assist in their advertising campaign for 1930.

Who's Who in Grayling?

Mrs. Luther Herrick is ill in bed.

Rest your feet in Deauville sandals from Olson's.

Miss Ethel Waite left Wednesday for Saginaw to spend a week with friends and relatives.

The gas and weight tax has brought to Crawford county road fund the sum of \$996.71, for use in highway purposes.

Several new styles of Bostonian Oxfords just arrived at Olson's.

Miss Louise Sibley spent the week end in Gaylord, the guest of Miss Grace Campbell.

Mr. and Mrs. Donald Herrick of Detroit spent Sunday with the former's parents, Mr. and Mrs. Luther Herrick and family.

Our "23 years ago" edition tells about freezing temperatures and several inches of snow. Guess we are not so bad off after all.

Mr. and Mrs. Ray Gathin returned to their home in Cleveland, Ohio Wednesday after a week's visit with Mr. and Mrs. Herbert Gathin and family.

Mr. and Mrs. Jess Givens of Roscommon are enjoying a motor trip through various cities. This week they are visiting in Detroit, Grand Rapids, Muskegon and other places.

Thorwald Sorrenson and the following seniors spent last week resorting at the Swenson cottage at Lake Margrethe: Joseph Kessell, Gordon Pond, Marius Hanson, Arthur May.

Mr. and Mrs. George Smith and son Jr. returned Monday to their home in Hemlock, Michigan after spending a few days with the latter's parents, Mr. and Mrs. Elmer Waite and family.

The ladies quartette of Michelson Memorial church will sing at the M. E. church in Frederic tonight—Thursday—at the commencement exercises when Rev. Greenwood will give the address.

Mr. and Mrs. Elmer Waite and daughter Bertha motored to Saginaw Saturday to spend the week end with relatives. They were to remain until their return to Grayling by Leon MacGregor of Saginaw who is spending several days at the Waite home.

Mr. and Mrs. William Laurent entertained several ladies and gentlemen at their home in Sunday evening. The guests enjoyed playing cards until a late hour after which refreshments were served.

Mrs. Roy McEwen entertained several ladies at her home last Thursday afternoon. The time was spent visiting and playing games for which prizes were given to Mrs. E. Moore and Mrs. Neil McDaniel. Lunch was served by Mrs. McEwen later which added to the enjoyment of the ladies.

Mr. and Mrs. A. M. Lewis of Flint were in Grayling over the week end visiting friends. During the time they were here, they occupied their cottage at Lake Margrethe and had as their guests, Mr. and Mrs. J. Minter, also of Flint. Mr. Lewis is now nicely settled in his new drug store and says he is planning to build a new home in Flint very soon.

Last Friday morning early a police dog, so it is reported, entered the rabbit hutch of Sam Cooley by breaking thru the screen, and killed seven thoroughbred Chinchilla rabbits. One of these was a doe valued at \$25. The loss, Sam says, will amount to about \$65. He feels deeply the loss of the stock, especially the doe which was a valuable breeder.

Mr. and Mrs. W. J. Olson and children of Detroit, Alfred Olson of Detroit and Ernest Olson of Pontiac visited at the home of Mr. and Mrs. N. P. Olson and family over the week end. Saturday was Mr. Olson's eightieth birthday and although he is confined to his bed by illness and was unable to be up and around the house, it cheered him greatly to have all of his family here on that occasion.

Mrs. Fred Webb, Mrs. Frank Barlette, Mrs. T. P. Peterson, Mrs. Sigwald Hanson and Mrs. E. J. Olson returned Tuesday from Alpena where they attended a district meeting of the Northeastern Federation of Woman's Clubs. The meeting was held on Monday and Tuesday and several prominent speakers attended, the principal speaker being Mr. W. W. Whitehouse, Dean of Albion College. His address was especially interesting. Other speakers at the meeting included the state president of the Federation, Mrs. Eben Mansford of Lansing, and Mrs. A. E. Mulder, district president of Clare.

Mrs. John Staphan was hostess to Our Gang Sewing club last Thursday afternoon. The afternoon was spent in sewing and games. The games were very interesting and a prize was won by Mrs. Barton Wakley. There were fifteen members and guests present besides several children. The rainy prize was won by Mrs. Neil Mathews. A very delicious lunch was served. The next meeting of the Club will be at the home of Mrs. John Erkes, June 5th.

Last Thursday evening several friends gathered at the home of Mrs. Dewey Palmer to celebrate Mrs. Palmer's birthday which fell a few days previous and Mrs. Barton Wakley's whose birthday fell on that day. The evening was spent playing games and visiting. Miss Velma Barger won the prize. Late in the evening a delicious lunch was served after which everyone departed for home wishing the ladies many more happy birthdays.

Board of Review Meeting

Grayling Township Board of Review will meet at Grayling Town Hall on June 3rd and 4th and on June 10th and 11th, for the purpose of reviewing the assessment roll.

F. A. BARNETT, Supervisor.

NOTICE

I will not be responsible for any debts contracted by my wife after this date.

Dated—Grayling, May 17, 1930.

Wm. P. McNeill.

May 29, 1930

DEAR FRIENDS:

Several people have been in the store here looking for graduation gifts. Commencement time will soon be here.

There will be a fine class of graduates from the Grayling high school this year and the whole community is proud of them. They deserve the best we can give them.

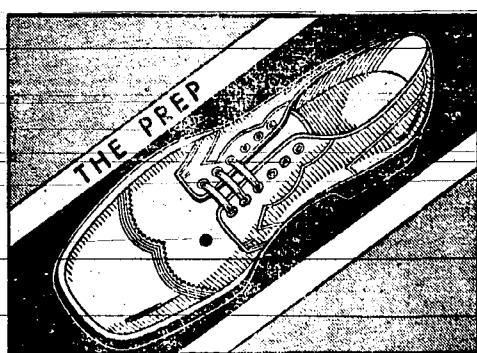

Mr. Peterson ordered a fine selection of fountain pens and silver and gold pencils especially for graduation. They make practical gifts, always.

And for the girl or boy graduate, the most wonderful gift of all is a watch. We have beautiful gift watches for both boys and girls. You should see them.

TICK.

This Week

by ARTHUR BRIDGEMAN

**They Sang
To Discourage Reds
Marx and Confucius
The World Will Last**

Mrs. Naidu, Gandhi's successor as leader, gave a talk for nine months. Two hundred thousand Hindus marched on the British fort area at Bombay. You would call that serious. But 400 policemen stopped the 200,000. The latter sat down on the ground and sang songs. Irishmen wouldn't do that.

Congress votes, 210 to 18, an inquiry into "Red activities." This means the effort of "Red Russia" to change the government of the United States by persuading the "tollers" to arise in their might and throw off their chains.

Throwing off your chains would be all right, but throwing off your automobile, radio, vacuum cleaner, talking machine and other accessories of the modern worker would make life dull.

If congress will use its brains and the nation's resources to keep competent workers busy, it need not worry about any imported Russian "Red program."

If it doesn't keep American workers busy, it may have a "red program," home-made, more dangerous than anything ever devised.

The "Red" movement in China, attributed to Russia, worries the Nanking government and threatens permanent disturbance and war.

Premature transplanting of new ideas into minds unprepared to receive them is dangerous.

The Chinese, not ready for the theories of Karl Marx or Redus, take them too seriously.

Much better if they would stick to Confucius for a few more centuries.

Here is comfort. Worry no more about the world coming to an end. A Canadian scientist says the sun is about ten billion years old and will last at least ten billion years longer. Ten thousand million years is a long time.

While the sun lasts the earth will last. The human race may be partially or completely wiped out at intervals, compelled to begin all over again, working its way up from microscopic creatures floating in salt water.

France permitted the Graf Zeppelin to sail over all her West Indian colonies except one place on the island of Martinique.

Britain gave permission to fly over British Caribbean territory.

That nonsense about giving other nations permission to use the air should end. Anybody can use the ocean of water and do what he pleases on it. Eight miles out. The other ocean, of air, soon to be more important, should be similarly regulated.

Anybody allowed to use it, anywhere, one mile or two miles up. International law should settle that.

Secretary Lamont predicts "normal" business in three months. April contracts for new construction amounted to \$183,000,000, biggest month since August, but lower than last April. Many will be glad to hear that even those that specialize in pessimism.

Mussolini believes in emphatic words and energetic deeds to back them. Recently he told a crowd of 100,000 in Florence that Italy was prepared for everybody. France included. Now he is adding twenty-two submarines. With those twenty-two submarines Mussolini could do a great deal to the peace of mind of France, Great Britain and other ship-owning nations.

Peace is beautiful, but Mussolini means to be ready for the other thing.

London, which often knows more about our affairs than we know, says money will be even cheaper than it was. The bank rate may be reduced to 2½ per cent.

Paris reports money "unlending." If only that had been the case last October, when the sky was the limit and everything going up! Then people wanted money and had to pay 15 and 20 per cent to borrow it. Now they don't want it and can get it for almost nothing.

Union square in New York is to have a high flagpole costing \$80,000, erected by the "Charles E. Murphy memorial committee." Mr. Murphy was a Tammany leader of considerable power, possessing the faculty of saying little and keeping his word.

The flagpole which was to be erected in Murphy's honor will dominate monuments to Washington, Lafayette and Lincoln, all in Union square.

On a second thought, the memorial committee decided that Mr. Murphy, although a powerful Tammany leader, was no greater than the three others in Union square, so the flagpole is to commemorate American independence.

Mr. Murphy, who had a sense of humor, would approve of that change.

Talkies have worried musicians, making theater orchestras unnecessary. In Schenectady, with television radio, General Electric company has shown that one orchestra leader could conduct a thousand orchestras at the same time.

Musicians played in a theater, led by "television" pictures of an orchestra conductor miles away.

HARRY I. BALL
FAIRFIELD, IOWA

NEWS & COMMENTS FROM WASHINGTON

(By Congressman Roy O. Woodruff, Tenth Michigan District.)

The prospects for early approval by the Senate of the London Naval Treaty grow dimmer as the hearings before the Senate Foreign Relations Committee and the Senate Naval Affairs Committee develop a constant, widening divergence of opinion as to whether or not the terms of the pact adequately protect the defense of this country in event of war.

High command officers of the Navy generally are opposed to the pact. I was the hope of the President that the agreement would be confirmed at this session, and he has served notice on the Senate that, unless this is done he will call that body in special session and keep the members here until they have taken action upon it.

The primaries in Pennsylvania are over and the usual diversity of opinion as to the national significance politically of the outcome is now raging. Some students of the situation assert that the victory of Secretary of Labor James Davis over Senator Joe Grundy is an administration gain.

Others contend that the whole outcome of the Keystone State primaries was the result of a fight in machine politics. Anyway, the country generally will heartily approve the election of Davis, who as an immigrant boy has by his own efforts fought his way upward to a position gained by few men. So far as I can recall, no other man has occupied a place in the Cabinets of three Presidents.

The victory of Gifford Pinchot over Francis S. Brown for the gubernatorial nomination must be conceded as a distinct victory for decency in politics. Mr. Pinchot has always been bitterly opposed by both political machines and to win under such circumstances is a tribute to both his ability and integrity.

Developments in the Joint Conference Committee on the Tariff make it probable that the final report or the bill will reach both houses of the Congress this week for action. It is certain that the vote in the Senate will be close, but it is believed by the administration leaders that the bill will be sent to the President by a Senate vote of one or two majority.

The Senate on May 21 adopted by a vote of 46 to 27 the Crouzen resolution suspending the authority of the Interstate Commerce Commission under existing law to authorize any railroad consolidation or acquisition of control until March 4, 1931, except in conformity with certain requirements. An amendment to the resolution, submitted by Senator Cullen, Democrat of Texas, was incorporated in the bill, providing that the Commission approve no consolidation which does not require continuation of shops and offices on all lines affected, nor provide adequate compensation for any damages to employees arising from the abandonment of such shops or offices.

Efforts to stabilize employment on the year-around basis constitute a new economic trend that will help to bring new manufacturers into the rural and other new markets, said Senator Capper, Republican of Kansas, in an address May 20 before the Agricultural Publishers' Association, meeting in connection with the convention of the Advertising Federation of America.

"Year-around employment is being discussed quite generally by the outstanding commercial leaders of America today," said Senator Capper, continuing that "in general the business leaders understood that they have a heavy responsibility toward their workers in providing continuous employment." The Senator evidently is in harmony with Senator Crouzen, who has for some time been urging the employers of labor to take the necessary steps to bring about continuous employment.

I have just circulated the district with the latest farmers' bulletin list. If my mailing list is as complete as I hope it is, practically every household in the district will receive one of the bulletins. As I am anxious that my constituents avail themselves of the opportunity to obtain the bulletins made available in this way, I hope to receive a great many requests. My allotment of the 1930 Agricultural Yearbook is at hand, and I will be glad to send these out upon request also.

87 BOYS ATTEND SCOUT CAMP
Boy Scouts from various parts of Northern Michigan attended a week-end camp sponsored by the Northern District Y.M.C.A. at Camp Daggett, Petoskey, over the past week-end. Eighty-seven boys and their leaders attended this camp. All spent Friday evening and Saturday together while thirty-five boys from Rogers City and vicinity stayed until Sunday noon. Time was spent in regular camp activities as well as some special work in scouting.

On Saturday morning, a surprise of not cocoa and oatmeal was furnished the group by the committee and well prepared by Mr. John Foley and Mr. Quintin Stone.

The entire group expressed their gratitude to trustees of Camp Daggett for the use of the Petoskey Camp and to the leaders who helped make this camp experience a success.

Health officials at Milwaukee have ordered that all pretzels on sale in that city must be wrapped in sanitary paper. As if anybody who takes what goes with pretzels would be afraid of an ordinary little germ.

A bigger Problem than PROHIBITION

WASHDAY DRUDGERY MUST BE REPEALED

Women of Grayling Overwhelmingly Favor Freedom!

Whether you vote "wet" or "dry" on the Prohibition question—whether you favor repeal, modification or strict enforcement of the 18th Amendment—you must decide at once a far more vital problem:

"What shall be done about washday in the home?"

Your family's health and happiness are at stake. For washday drudgery not only is robbing millions of women of their youth, their charm, their ability to enjoy life to the full. But it is also depriving children of that precious companionship and guidance which is their birthright.

Washday does not belong in modern life. Its back-ache and bother, its drain on energy, its thievery of golden leisure hours—are relics of the Dark Ages when women worked in the fields. For the home's sake—for our community's sake—let's abolish washtub and clothesline drudgery forever!

8 Million Families Know How

We have made a business of washday. Our scientific standards now assure safe, gentle care for your weekly washing. Rainsoft water in every suds and rinse gives cleaner, longer-lived clothes. Our prompt, efficient service is offered to you—at real thrift prices! No wonder so many families in this community "Let the Laundry do it."

Declare your sentiments on the appropriate ballot. Then phone us today for service. Vote the Laundry Ticket every week and repeal old-fashioned washday in your home!

Let the LAUNDRY do it

GRAYLING LAUNDRY [Phone 101-J] GRAYLING, MICH.

HUSBANDS!

VOTE HERE

...and hand to your wife

I vote to "Let the Laundry do it" for the following reasons:

- ☐ I married a wife, not a martyr.
- ☐ I rely on modern methods in my work—why not in the home?
- ☐ I like my shirts and collars to have that crisp, professionally-laundered look.
- ☐ I've lost my appetite for big-or-miss "washday suppers."
- ☐ I want to step out or entertain folks once in a while and you don't do yourself justice after wrestling with the wash all day.

Signed..... Your Husband.

WIVES!

VOTE HERE

...and hand to your husband

I vote to "Let the Laundry do it" for the following reasons:

- ☐ It's the sensible, up-to-date way.
- ☐ I can't do justice to the house and children when I have that "washed out" feeling!
- ☐ I'd like a breathing spell each week for reading and recreation.
- ☐ I'd like to step out or entertain in the evening, too!
- ☐ The Laundry way costs about as much as you make in an hour—and my day is worth your hour!

Signed..... Your Wife.

FISHERMEN OBSERVE TROUT LAWS

The opening day of the 1930 trout season, May 2, Conservation Officers in District 13, including Mecosta, Newaygo, Oceana, and Muskegon Counties, interviewed 802 trout fishermen—and not a single one had short fish or was without a license.

"This certainly points toward a remarkable advance in sportsmanship in this section of the state," W. C. Kidder, district conservation officer, said in reporting to the Law Enforcement Division office of the Conservation Department.

While the record in District 13, it was said, is unusual, throughout the state this spring, a greater tendency toward conservation law observance has been noticed by the officers.

Owosso, Mich.
May 26, 1930.

Mr. T. W. Hanson, Grayling, Michigan, Dear Mr. Hanson: Received your letter of May 21st also the little booklet with so many old familiar scenes which I was pleased to receive. I note you are a little hard-pressed for funds at this time for advertising the Old Home Town and I am enclosing my personal check for twenty-five dollars to help to defray the expense of same.

I was very sorry that I was not home the day you were here as I would like to have you stay for a few days and made myself, and the boys a visit.

A little later on when the weather gets warmer, I am going to have the boys go up and visit the Old Home Town and go down the river and do some fishing for a few days.

I am feeling considerably better than I was a few weeks ago and that is the reason why I would like to come up and see the Old Home Town once more as I know that this trip would do me a lot of good, so with kindest personal regards I remain, Yours truly, Jas. Mullhall.

Thanks, Jim—greatly appreciated.

Mahatma Gandhi is not the first pacifist who had original ideas on how to keep his country out of war.

OPENS SLEEPING ROOMS IN FISHER BLDG.

Carl Peterson has remodelled and furnished a number of rooms in the Fisher Building, which he owns, opposite Shoppemans Inn, and is prepared to furnish rooms for either steady boarders or for transients.

Every room has been polished and changed and the beds are all excellent and comfortable, and the place presents a neat and inviting appearance. While there are no private baths, still there is a bath in connection with the hotel for the convenience of its guests.

A new heating plant has been installed and all rooms are certain to be warm and comfortable at all times. A number of rooms are ready for use and more will be prepared whenever necessary.

Mr. Peterson is personally looking after the place and we are sure that his patrons will be well cared for.

Marcus Coolidge is running for the Democratic nomination for the Senate up in Massachusetts. Maybe he thinks that enough of the voters will mistake him for Calvin to put him over.

FREDERIC NEWS

Mr. and Mrs. Samuel Smalley and family of Otisco, Mich., were here over Sunday visiting Mrs. Anna Wells. They were accompanied by Mrs. Cochran of Holland—all old residents of Frederic.

Mrs. Hazel Smith Sheldon has been visiting her parents and old friends in Maple Forest the last week.

A wedding last Saturday—everybody happy. There was a slight mistake in the notice of John Wells' death. Clarence is not of Colorado, but is located at West McDonnell, Angel Island, Calif. Also Clifford was not mentioned. He is located at Decatur, Ill.

In the winter we have to keep our doors shut to keep out the cold; in the summer we have to keep them shut to keep out the dust.

WIN A PRIZE!

Do you know Who's Who?

Houses to Let in Chinese Palace. Chinese residents have been interested in a "want ad" appearing in an English language newspaper here, which runs as follows:

"To Let, good houses in Summer Palace. A number of buildings in the Summer Palace are now to be let as residences. Situated amidst beautiful surroundings, these buildings are both sanitary and comfortable, being neither too cold in winter nor too warm in summer. A few houses on the hill and a similar number near the lake are available for immediate occupation. For further particulars please apply to the City Government of Peking."

The palace, one of the show places of the ancient capital, was the particular pride of the Empress Dowager Tzu Hsi.

LOVELL'S NEWS

Miss Edna Fry gave the pupils and parents a picnic on the last day of school. All report a fine time.

Clarence Stillwagon is driving a new car.

Mr. and Mrs. A. R. Caid and Mr. and Mrs. Edgar Caid and children motored to Gladwin Sunday. Mr. and Mrs. Albert Pochelon of Detroit spent a few days at their cabin, the Fighting Deers.

Lewis Stillwagon is visiting his sister, Mrs. Bill Hallberg in Detroit.

Mrs. Edgar Caid gave a miscellaneous shower in honor of Miss Edna Fry who is to be a June bride.

Mr. and Mrs. B. W. DeGuichard has gone to Flint for a few days.

John Hurick, caretaker of the Big Creek Lodge, has returned from Durand for the summer.

Mr. and Mrs. Fred Roe of Detroit spent a few days in Lovell.

Lord Derby says that it is pronounced "darby." The other day up in New York it was heard pronounced "doiby."
